SPRING + SUMMER 2021

T H I R T Y | T H R E E | T H R E A D S .

Thirty Three Threads was born on the 33rd parallel. It echoes the spirit of the active lifestyle so intrinsic to San Diego — our home — and it is here that our story comes to life.

Our brands — Tavi Noir, ToeSox, and Base 33 — all reflect this synergy, although each steps boldly with its own unique personality.

We define new trends — in the studio and beyond — driven by our customers' desire to continually enhance their practice. And we dedicate our days to innovating and creating high-performance and enduring quality products that allow them to lead the active lifestyle they choose with style they love.

We invite you to join our journey.

33 THREADS DIFFERENCE

In our quest to be the best, we also want to do our best. That means being thoughtful in how we make our products, and how we treat people and the planet along the way.

This is how we make change happen...

MINIMAL WASTE PACKAGING

We choose to print less – in our marketing and in our office. Print materials, like catalogs and packaging, we use recycled content, post-consumer waste materials, soy-based inks and using printers partnered with The Sustainable Forestry Initiative.

ETHICAL SOURCING

We manufacture at facilities that are safe for workers and source natural, recycled, or sustainable fibers whenever possible. It's important that our products — from fiber to final package — are in alignment with our values to support the environment and its communities.

ORGANIC COTTON

We source GOTS certified and ecologically produced organic cotton using specialty farmers to deliver the highest quality cotton, for the production of our socks.

BEST BUSINESS PRACTICES

We take great care in how we treat the valuable workers who help us bring our goods to you. To ensure that every worker who produces our products has a safe and healthy work environment, we partner with a limited number of factories around the world. We regularly visit these factories and closely monitor them to confirm our standards and best practices are being met. We are proud of the close relationships we have established with each partner and factory we use.

THE SOCK THAT CHANGED THE GAME™

When we created a sock with 5 toes, people asked why. Then they tried them — and they never went back to a regular grip sock again. The ToeSox 5 toe design means your feet stay anchored in place with no bunching or twisting, so you can stand strong and forget about slipping. That means better performance for a better workout. What's more, no other sock comes close to our durability, our quality or the eco-consciousness of our fabrics.

Game changer? You bet.

HERE'S WHY 5

1 — ANCHORS TO YOUR FOOT

That means no bunching, no twisting and no slipping so you can get down to doing what you love... only better.

2 — MIMICS NATURE

And the movement of your feet, toes and all. We believe in embracing the natural balance you get from spreading your toes.

3 — CREATES HYGIENIC BARRIER

While still allowing your toes to feel free and uninhibited. Leave those germs where they belong.

4 — AMPLIFIES YOUR WORKOUT

By activating your foot muscles and allowing you to push your body to its edge.

5 — ELIMINATES FRICTION

And chafing, and blisters, and moisture between your toes, while promoting circulation.

botanic collection

Indulge in our all-new Botanic Collection, crafted from only the most natural materials. With gentle dyes made from flowers, plants, and shells, and latex-free for the more sensitive soles, these socks are simply beautiful.

organic cotton + botanic dye

Our natural OEKO-TEX Standard 100 certified dyestuffs are extracted from flowers, plants, shells, fruits, leaves, and other natural materials using the most reputable natural botanic dyeing technology available.

The color tones you see are the result of each botanic's waste materials, such as chestnut shells, mulberry leaves, and gardenia flowers.

Combining our premium GOTS certified organic combed cotton yarns and our sensitive skin friendly, latex-free rubber with these all natural botanic dyes, makes our Botanic Collection our most special line yet.

*Where performance
meets luxury*

We make it our mission to continually create mini "works of art" so each pair of socks can be as unique and beautiful as you.

At Tavi Noir, details are everything. We believe that soft premium fabrics — such as certified organic cotton and specialty custom colored and blended yarns — should always meet beautiful designs. We are a world where sophisticated strap details complement unique patterns and prints, and where the simple sock is elevated to a style statement.

TAVI NOIR GRIP TECH

Tavi Noir grip socks are lusciously soft with impeccable attention to detail and fashion sense.

SAVVY

Our classic silhouette never goes out of style

MADDIE

Stay cool with chic mesh top

TRIANGLES ARE OUR FAVORITE SHAPE

Tavi Noir's recognizable grip sole is powered with intention. There's a secret to the triangle shape that gives our grip the superior traction you need for barefoot studio classes like barre, Pilates and yoga.

SURF INSPIRATION

Surfboard traction pads feature a diamond pattern to help wet feet hold on. We mirror his superb design for superior grip and traction. It inspired Tavi Noir's grip pattern and logo.

EMMA

The Mary Jane silhouette with a less-is-more attitude keeps you cool in class

CHLOE

Ballet-inspired criss cross elastic straps keep your sock in place

GRIP COLLECTION

We all have a secret weapon. Yours is where you work out — the place you focus, ground yourself, and build strength. You don't take it lightly and neither do we. And because our whole reason for being is to keep you active, we created a serious men's grip sock — one that stops the slip, beats the slide, and keeps you steady on your feet so you can get the most out of every powerful movement. No distractions. Just YOU.
